https://www.nmt.edu/advancement/golf-tournament.php

Proceeds go to support students' scholarly endeavors and the creation of additional resources to support the mission of the University.

Dallin Sobers

Major: Chemistry Minor: Music

Dallin Sobers served as Vice President of the NMT Student Government Association (SGA) for 2 years and will be serving as Presient for the 2021/2022 school year. He believes serving as an SGA officer has enabled him to learn about New Mexico Tech, make priceless connections, and led him to discover his talent for politicking. His goal is to help other students enjoy their time at NMT.

A Chemistry major, Dallin is also minoring in Music; his parents are music teachers, and music has always been an integral part of his life. A piano player, he was (and plans to be again when possible) a member of an NMT jazz quartet and is studying classical music and composition.

Dallin credits a "magical" high school chemistry teacher for his interest in pursuing a career in teaching chemistry. His plans, after NMT, include first teaching at the high school level and then pursuing a Ph.D., with a possible goal of becoming a university chemistry professor. He has found that every NMT chemistry professor he knows is "passionate about chemistry and teaching, and kind. They got to know me, and all their students, pretty well."

Dallin is paying his own way through school, and an unfortunate set of circumstances between his freshman and sophomore years left him short of funds. Being awarded the President's Tuition Assistance Scholarship "bridged a very big gap" and meant he was able to continue as a full-time student. Between his full course load (all his classes are online this semester due to COVID-19) and his full-time student job as SGA Vice President, Dallin is finding this semester challenging but rewarding. He reminds himself to "panic less and breathe more."

He extends a very sincere thank you to everyone who supports the New Mexico Tech President's Tuition Assistance Scholarship. Without it, he would have had to leave NMT to earn funds to continue pursuing his degree by working full-time and it would have been hard to come back. As he says, "College is not easy, but the level of caring here is astronomical."
