RE: RFP Number: 1906013E - Amendment #2
Commodity: Consultant Services

Please check the NM Tech website often for updates on this RFP.

Q1) The RFP references the statement of work - is that included in the body of the RFP?
A1) Yes, see page 11, item 15 and 16.

Q2) Deliverables referenced in section 17, are they customizable to the approach proposed?
A2) Yes.

Q3) What contract type is envisioned for the award?
A3) Firm Fixed Price or Cost Reimbursable.

Q4) Please provide confirmation if the awardee of the resulting contract will be tasked with developing requirements within the following areas, infrastructure improvement, instrumentation development, vulnerability assessments, or data collection at PTRC.
A4) We may ask the awardee to help with developing requirements in the areas specified above.

Q5) Is an award under this contract opportunity necessary to bid on other work at PTRC such as infrastructure improvement, instrumentation development, vulnerability assessments, or data collection?
A5) Yes, you can still work on task. No, you will not be excluded. See 5.17 which allows us to add other services identified at a later date.

Q6) In item 2.1 in the table in Section 4.1.1, the Evaluation Criteria references “required deliverables as described in the SOW.” However, the Scope of Work in Section 16 does not provide any deliverables. Instead, Deliverables are provided in a list in Section 17. Will the Evaluation Criteria in item 2.1 in the table in Section 4.1.1 be made on Section 16 or Section 17?
A6) Both.

Q7) Are any specific class of workers required to be paid Prevailing Wages for work conducted under a contract for NMIMT or on state owned facilities? If so, please identify them.
A7) No, unless flowed down by Govt customer. Wage rates would only apply if the contractor performs construction. Depending on the funds used, wages would be paid based on Davis Bacon (federal funds) or State of New Mexico wages (state funds) in effect at the time of construction.

All Offerors are required to confirm the receipt of this amendment in their response. All other terms and conditions of the RFP remain unchanged.
