SECTION II - GENERAL TERMS AND CONDITIONS

A. LIMITATIONS: Use of the rates set forth under Section I is subject to availability of funds and to any other statutory or administrative limitations. The rates are applicable to a given grant, contract or other agreement only to the extent that funds are available and consistent with any and all limitations of cost clauses or provisions, if any, contained therein. Acceptance of any or all of the rates agreed to herein is predicated upon the following conditions: (1) that no costs other than those incurred by the institution were included in this indirect cost pool as finally accepted and that such costs are legal obligations of the institution and allowable under governing cost principles; (2) that the same costs that have been treated as indirect costs are not claimed as direct costs; (3) that similar types of costs have been accorded consistent accounting treatment; and (4) that the information provided by the institution which was used as a basis for acceptance of the rates agreed to herein, and expressly relied upon by the Government in negotiating and accepting the said rates is not subsequently found to be materially incomplete or inaccurate.

B. ACCOUNTING CHANGES: The rates contained in Section I of this agreement are based on the accounting system in effect at the time the agreement was negotiated. Changes to the method(s) of accounting for costs, which affect the amount of reimbursement resulting from the use of these rates require the prior written approval of the authorized representative of the cognizant agency for indirect costs. Such changes include but are not limited to changes in the charging of a particular type of cost from indirect to direct. Failure to obtain such approval may result in subsequent cost disallowances.

C. PROVISIONAL RATES: The provisional rates contained in this agreement are subject to unilateral amendment by the Government or bilateral amendment by the contracting parties at any time.

D. USE BY OTHER FEDERAL AGENCIES: The rates set forth in Section I are negotiated in accordance with and under the authority set forth in 2 CFR Part 200. Accordingly, such rates shall be applied to the extent provided in such regulations to grants, contracts, and other agreements to which 2 CFR Part 200 applies, subject to any limitations in part A of this section. Copies of this document may be provided by either party to other federal agencies to provide such agencies with documentary notice of this agreement and its terms and conditions.

E. SPECIAL REMARKS:

1. The rates included in Section I are not intended to be applied to Intergovernmental Personal Act (IPA) costs. If the New Mexico Institute of Mining and Technology elects to seek reimbursement of indirect costs associated with IPA agreements, then the New Mexico Institute of Mining and Technology and the Office of Naval Research shall establish a special indirect cost rate for IPA agreements in accordance with the provisions of 2 CFR Part 200.

2. The New Mexico Institute of Mining and Technology uses off-campus rates for sponsored projects that are conducted: (1) in leased facilities where space-related costs,
e.g. rent, utilities, and maintenance, are charged directly to the project, or (2) in facilities made available at no cost to the project by another university, the federal government or by any other non-institute organization.

3. The Government's agreement with the rates set forth in Section I is not an acceptance of the New Mexico Institute of Mining and Technology's accounting practices or methodologies. Any reliance by the Government on cost data or methodologies submitted by the New Mexico Institute of Mining and Technology is on a non-precedence-setting basis and does not imply Government acceptance.
