TUITION BENEFITS POLICY

New Mexico Tech offers regular full-time employees three tuition waiver programs.

For employees with one year of service, full resident tuition assistance is offered for dependent children who are enrolled as regular full or part-time students. The student must be in good standing to continue the waiver. For purposes of this policy a dependent is defined as one claimed as a dependent on the most recent U.S. Internal Revenue Service tax forms.

The second program offers full resident tuition waiver for up to three credit hours per family each semester to regular full-time employees and their immediate family (spouse and dependent children). Employees may, with the approval of their supervisor, be given administrative time from work to attend a class not to exceed three hours per week.

Lastly, employees taking non-credit community college courses will have one-half of the tuition of those courses waived.

By signing this Tuition Waiver, I have read and understand this policy. If found not to be in compliance, am responsible for repayment of tuition and fees.

IRS Tax verification of dependent children may be requested by Human Resources at any time.
