**JOB DUTIES:**

Provides direction and leadership in developing, communicating, executing and sustaining strategic initiatives. They may provide integrated direction, management and leadership in the administrative and business planning, budgeting and automation efforts for externally funded programs. The programs and initiatives under their management are of key institutional impact, both within and external to the University, and are typically operations based, revenue generating and/or grant funded from a major funding source or series of funding sources.

As a member of the Office of Research, they design and implement strategic initiatives by identifying needs, developing action plans, and overseeing the implementation and monitoring of plans, ensuring that programs are aligned with institutional goals. They will serve as the primary liaison for institutional collaborations with the US Air Force Research Laboratory’s (AFRL) Directed Energy engagement services provided by the Southwest Innovation Alliance at NMT. As assigned, they will monitor the performance of multiple programs through cohesive strategic plan development and execution, knowledge management and the implementation of program evaluation. Provides advanced professional/technical leadership, consultation, and expertise within an assigned programmatic area(s) or line(s) of effort. Sets strategic direction, develops, and implements work scope and related operational policies and procedures; establishes funding and provides operational planning, budgeting and assessment.
