a. Peter Gerity- Deans meeting on January 15th, 2013 and Faculty Senate on January 22nd. With regard to the International Students situation, Lillian Armijo was present to clarify what is being done after the retirement of Sharon Spurgin. Lillian Armijo addressed the Senate by stating that issues we don’t have expertise on, UNM and NMSU are helping address those. If a student does not know what to do, direct them to Lillian. A replacement for Sharon Spurgin has been hired. Tom Engler asked how we ensure this does not happen again. Lillian informed the Senate that there are three International Service Officers on campus who have been cross-trained. There is a one month lead time needed on all processing of paperwork. Barbara Rowe, an attorney for New Mexico Tech on immigration and international issues has been utilized as well. Vice President Melissa Jaramillo-Fleming said if there is an issue that needs to be addressed, please go directly to the source to resolve that issue.

c. Barbara Bonnekessen- Formation of NMT AAUP chapter
American Association of University Professors. The NMT Chapter was revived on Oct 16, 2012. This is a space to talk, and a place to discuss academic freedom, tenure and other topics related to the profession. The group has a Facebook page at Facebook.com/AAUPatNMT and an email address at aaupnmchapter@gmail.com. Look for an announcement in January regarding the re-launch. Historically, the AAUP was founded to protect academic freedom. This was to combat the outside influence of donors at universities and to professionalize faculty the first US statements on tenure come from the AAUP. The “red book” is available on reserve in the library. AAUP Supports the mission of Uni-
universities to protect a solid liberal arts education for critical and informed thinking. One does not need to be a national member to participate in the NMT chapter

      Motion to have these Math minors added to the catalog- Anwar Hossain

      Discussion by Richard Sonnenfeld. These were vetted through all committee bodies. Terry Lowe added discussion to have these looked at after more classes have been added during the coming academic year.

      Motion Passed Unanimously.

   c. Benefits- Bruce Harrison
      Benefits fair was held last week and the committee met with Meritain and individuals. The committee did this because Meritain did not have a broad perspective of the unhappiness over the transition in providers and in the coverage being provided. Much of the transferred paperwork was done by hand, which resulted in errors. This was in part due to HCH personnel who were supposed to be in charge of our data, and this did not provide the kind of succession we hoped for. New communication pathways were set up. Angie Gonzales was not seeing much of this communication as many individuals were going directly to Meritain. Customer service will be improved. The requested follow-up is to bring forward complaints in the future to Meritain in an organized manner. Richard Sonnenfeld added that the Benefits Committee has the phone numbers for contacting the people at Meritain directly.

   d. Budget- Ken Minschwaner
      The budget committee has had two meetings this semester, and has been contacted by faculty this semester about reports on staffing and trends for salaries, and categories of positions. They are trying to track changes with different faculty statuses and are in the data collection and analysis mode. There is an Annual Workforce Analysis document being prepared and an Organizational listing has
been requested. One recommendation from the committee is to have the Institute’s data publicly available, especially electronically. Discussion followed on whether to have a motion to make the last 10 years data available electronically.
