REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Trustees
New Mexico Institute of Mining and Technology
Employee Benefit Trust

Report on the Financial Statements

We have audited the accompanying basic financial statements of the New Mexico Institute of Mining and Technology Employee Benefit Trust (the Trust), as of and for the years ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Trust's management.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Trust’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.
Basis for Qualified Opinion

As more fully described in Note I to the financial statements, a post employment benefit for retired faculty is contained in the benefit structure of the plan. The Trustees of the plan have not yet engaged a qualified actuary to perform the GASB 45 other post employment benefit (OPEB) study in order to determine the magnitude of potential unfunded accrued actuarial liability (UAAL) associated with the OPEB obligations. Accounting principles generally accepted in the United States of America require the measurement and accrual of annual OPEB cost on an accrual basis and require that the Trust obtain a periodic actuarial study. Certain disclosures and required supplementary information associated with actuarial values of OPEB plans are not reported since there has been no actuarial study.

Qualified Opinion

In our opinion, except for the effects of not recording the estimated costs of post employment benefits under GASB 45 and reporting associated disclosures, as discussed in the Basis for Qualified Opinion paragraph, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Trust as of June 30, 2013 and 2012, and the results of its operations for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The financial statements of the Trust are intended to present financial position and changes of financial position attributable to the Trust. They do not purport to, and do not, present fairly the financial position of New Mexico Institute of Mining and Technology and changes in its financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

For the years ended June 30, 2013 and 2012, Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 31, 2014, on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Trust’s internal control over financial reporting and compliance.

The accompanying notes are an integral part of these financial statements.
NOTE A – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Organization

The Board of Regents of the New Mexico Institute of Mining and Technology (the Institute) created the New Mexico Institute of Mining and Technology Employee Benefit Trust (the Trust) to operate, control and maintain a self-funded program to provide certain health benefits (medical and dental) to eligible Institute employees and certain members of their families. Retired employees of the Institute are eligible to participate provided that they continue paying the employee contribution assessed to active Institute employees, as well as the contribution portion which is paid by the Institute for active employees (see Note B). In addition, this program is used to pay premiums for life insurance coverage on eligible participants and to administer the Flexible Benefits Plan (the Flex Plan). The Flex Plan, which is fully funded by employees, provides reimbursement of certain employee health, life, and dependent care expenses. These collective benefits comprise the Trust. The Board of Regents of the Institute serves as Trustees (Trust Committee) and has delegated the operations of the Trust to the executive staff of the Institute. The Trustees and Institute management have designated a third-party administrator to process the claims submitted by covered participants.

2. Basis of Presentation

The financial statements of the Trust have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental entities acting as fiduciaries. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements have been prepared on the accrual basis.

3. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and all highly liquid investments with maturities of three months or less when purchased. The Trust maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits and state collateralization requirements. The Trust has not experienced any losses in such accounts.

4. Investments

The New Mexico State Investment Council's (SIC) investments are stated at fair value in accordance with GASB Statement No. 31, with increases or decreases in fair value recognized in the statement of changes in net assets at the end of each month. Investment transactions are recorded on the trade date. Dividends are recognized as income when declared. Current fair value of investments may fluctuate markedly from what is recorded at June 30 of each year. The investments function similar to mutual funds and are secured by purchased financial securities. The SIC issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507. The report is also available on the SIC’s website at www.sic.state.nm.us.
NOTE A – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

4. Investments – Continued

The SIC’s investments are reported in the following categories: private-purpose trust funds and external investment trust funds. Both types of funds are participants in the Office’s Large Cap. Active, Large Cap. Index, Core Bonds, Structured Credit, Mid/Small Cap., Non-U.S. Developed Markets, Non-U.S. Emerging Markets and Absolute Return investment pools. Interest rate risk, custodial risk, credit risk, and risk of uncertainty of these investments are described in detail within the SIC’s financial report.

5. Health Benefits Payable

Health benefits payable are accrued based on Plan experience and include a provision for incurred but not reported claims. The Trust holds employee and university contributions which are used solely to offset claims incurred and administrative fees associated with the Plan.

6. Flexible Benefits Payable

Flexible benefits payable represent the Trust’s liability for employee contributions to the Flex Plan. Employees have the option to participate in the Flex Plan by making pre-tax contributions from their salaries up to defined maximum limits. The Institute has no obligations under the Flex Plan. The Trust administers the Flex Plan and any unclaimed amounts in the flexible benefits payable at the end of the calendar year revert to the Trust for use at its discretion.

7. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

8. Subsequent Events

Subsequent events have been evaluated through January 31, 2014, the date at which the financials were available for issuance, to determine whether such events should be recorded or disclosed in the financial statements for the year ended June 30, 2013. Except for the termination of the Health Benefit Plans (see Note F), management believes no other material subsequent events have arisen that would require adjustment or disclosure.

9. Eligibility

All full-time employees of the Institute and their eligible dependants are eligible to participate in the Plan. An employee is eligible for coverage on the first day of the month following attainment of status as a full-time employee.
NOTE B – FUNDING POLICY

The Trust is funded by contributions from both the Institute and employees of the Institute. Flex Plan contributions consist of employee-only contributions and are based on amounts elected by the employees up to specified limits, and are withheld from employee pay. All other contributions, including employee and employer contributions, are based on amounts determined by the Trust Committee as necessary to cover the expenses of the Trust. Contributions are funded on a monthly basis.

The Trust has stop-loss insurance for individual employee claims in excess of $135,000, with an overall limitation on aggregate claims of $2,000,000.

NOTE C – INTEREST IN THE LOCAL GOVERNMENT INVESTMENT POOL

The investment in the State Treasurer’s investment pool is valued at fair value based on quoted market prices as of the valuation date. The State Treasurer Local Government Investment Pool (LGIP) is not SEC registered. Section 6-10-10 I, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The Local Government Investment Pool investments are monitored by the same investment committee and the same policies and procedures that apply to all other State investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the funds were invested. Participation in the LGIP is voluntary. The Trust has no control over the State Treasurer’s investment pools and provides the following disclosure provided by the State Treasurer’s Office concerning the Trust’s investment in the New MexiGROW LGIP:

June 30, 2013
New MexiGROW LGIP AAAm rated $65,450 59 day WAM(R) and 90 day WAM(F)

NOTE D – TRANSACTIONS WITH NEW MEXICO TECH

The Institute advanced $950,000 during the year ended June 30, 2013 for cash flow purposes by the Trust, which increased the total obligation due to New Mexico Tech to $1,750,000.

Certain employees of New Mexico Tech provide administrative and accounting services for the Benefit Plan at no charge to the plan. The cost of the annual audit has been paid by New Mexico Tech.
NOTE E – CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

The liability for claims and claims adjustment expenses, which is reported on an ultimate development basis, includes an amount determined from claims reports and individual cases, and an amount for claims incurred but not reported. Estimates of the liability for amounts incurred but not reported as of June 30, 2013 and 2012 have been based on the Institute's historical claims' experience. While management believes that these estimates are adequate, actual incurred but unpaid claims may vary significantly from the amount provided.

As of June 30, 2013 and 2012, the changes in reserves for claims and claims adjustment expenses are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2013</th>
<th>2012</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liability for claims and claims adjustment expenses at beginning of year</td>
<td>$ 380,846</td>
<td>$ 529,467</td>
</tr>
<tr>
<td>Incurred claims and claims adjustment expenses</td>
<td>7,733,094</td>
<td>7,722,589</td>
</tr>
<tr>
<td>Payments, net of recoveries</td>
<td>(7,413,940)</td>
<td>(7,871,210)</td>
</tr>
<tr>
<td>Liability for claims and claims adjustment expenses at end of year</td>
<td>$ 700,000</td>
<td>$ 380,846</td>
</tr>
</tbody>
</table>

NOTE F – TERMINATION PROVISIONS

The Trust may be terminated at any time upon due notice by the Trust Committee or the Institute. Upon termination, all monies remaining in the Trust will be used to pay any unpaid claims or used to continue benefits described in the Trust document until all such monies have been exhausted. In no event, upon termination, shall any assets of the Trust revert back to the Institute. The Institute is committed to fund deficits in the Trust on an as needed basis.

NOTE G – INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Institute by letter dated January 26, 1984 that the Trust is tax-exempt, under Section 501(c)(9) of the Internal Revenue Code. The Trust has been amended since receiving the determination letter. However, the Trust Committee believes that the Trust is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Trust Committee believes that the Trust was tax exempt during the periods covered by the accompanying financial statements.
NOTE H – HEALTH BENEFIT PLAN CHANGES

As of January 2014, the Trust has been running a deficit because of high Health Benefit claims for the past thirty-two months. The Institute is responsible for the deficit (See Note D). In response to recently incurred deficits, the Trust has been revamped during fiscal year ended 2013 by amending and restating the plan effective January 1, 2013. All three of the previous plans were terminated and three new plans will be in use beginning January 1, 2013. The new plans are Preferred Provider Organization (PPO) plans; $500, $750 and $1,000 deductible will be available for employees. It is expected that the three new PPO plans will be more cost effective over time. Subsequent to year-end the regents voted to increase employee contribution requirements to the plan by 16%.

NOTE I – OTHER POST EMPLOYMENT BENEFITS (OPEB) UNFUNDED LIABILITY

Faculty of New Mexico Tech may continue health benefit coverage at retirement by electing to pay the full active participant premium charged to New Mexico Tech’s health coverage plan, a single employer plan. The differential between the active participant premium and that charged for an older retiree on a standalone basis qualifies as a post employment benefit. Governmental Accounting Standards Board Statement No. 45 (GASB 45) "Accounting and Financial Reporting by Employers for Postemployment Benefits other Than Pensions" requires accrual accounting for this post employment benefit which in turn requires the determination of the respective unfunded actuarial accrued liability that applies to all participants receiving the benefit. GASB 45 further requires a periodic actuarial study be obtained to measure the amount of the pension benefits on an accrual basis. The Tech plan is currently on a pay as you go basis. These financial statements do not contain the determination of the unfunded actuarial accrued liability (UAAL) that might need to be accrued. The amount of the UAAL accrual and the materiality to the financial statements is uncertain.
SUPPLEMENTARY INFORMATION
INDEPENDENT AUDITORS’ REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees
New Mexico Institute of Mining and Technology
Employee Benefit Trust

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the New Mexico Institute of Mining and Technology Employee Benefit Trust (the Trust), as of and for the year ended June 30, 2013, and have issued our report thereon dated January 31, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Trust’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Trust’s financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses, as defined above. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as described above. However, we identified certain deficiencies in internal control over financial reporting, described as item 13-01 in the accompanying schedule of findings and responses that we consider to be a significant deficiency in internal control over financial reporting. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Trust’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose any instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

**The Trust’s Response to Findings**

The Trust’s response to the findings identified in our audit is described in the accompanying schedule of findings and responses. The Trust’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Trust’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Albuquerque, New Mexico
January 31, 2014
SCHEDULE OF FINDINGS AND RESPONSES

Year Ended June 30, 2013

Prior Year Finding Description

Findings – Financial Statement Audit

None

Current Year Finding Description

Findings – Financial Statement Audit

13-01 Other Post Employment Benefits (OPEB) Unfunded Liability (Significant Deficiency)
FINDINGS – FINANCIAL STATEMENT AUDIT

13-01 OTHER POST EMPLOYMENT BENEFITS (OPEB) UNFUNDED LIABILITY (SIGNIFICANT DEFICIENCY)

CONDITION
The Institute’s self-insured health plan provides a certain post employment benefit to retired faculty participating in the plan. Retired faculty are charged the premium that is applicable to active faculty including the employer portion. The differential between this active premium (generally lower in amount) and what might be charged to retired faculty for health insurance on a standalone basis (generally higher in amount) is a post employment benefit. Accounting standards require that this liability be estimated and recorded on an accrual basis. The actuarial calculation of this liability is currently not yet contracted for and is not recorded in the financial statements of the benefit trust administered by the university.

CRITERIA
GASB 45 requires the NM Employee Benefit Trust (Trust) to obtain an actuarial study in order to measure the magnitude of potential unfunded accrued actuarial liability (UAAL) associated with other post employment benefit (OPEB) obligations. An actuarial study should be obtained periodically for this measurement.

CAUSE
The Trustees of the plan have not yet engaged a qualified actuary to perform the GASB 45 OPEB study.

EFFECT
Management does not know the impact of the UAAL if material and may have failed to comply with the OPEB disclosure requirements of the Trust under GASB 45. The plan received a qualified opinion due to uncertainty regarding the materiality of UAAL.

RECOMMENDATION
We recommend that management obtain an actuarial study as of June 30, 2013 as soon as possible.

MANAGEMENT RESPONSE AND CORRECTIVE ACTION PLAN
Management will follow up and obtain an actuarial study to comply with GASB 45. New Mexico Tech attempted to have the actuarial study completed before the audit due date, but because of a communication breakdown, the report was not completed. The actuarial consultant did not receive the necessary information on time.

The NMT Human Resource Office and Meritain are gathering the required information for the study. The study is expected to be completed early 2014.
