Users who will not be here during the migration period

There is no need to be on campus during the migration period. The only thing that you need is your Google Apps account name and password. Starting on May 13th you can log in to Banweb (call or stop by the Registrar’s office if you do not know your Banweb password) to get this information. On May 23rd email will stop being delivered to your @nmt or @admin accounts and instead get delivered to your new Google Apps account. You will still be able to access your old email account to look at past email, but you will not be able to send or receive from there.

Important Information

- **There is NO way to individually control who gets moved to Google.** It’s all or nothing.

- **May 13th – Start date to get user names and passwords from Banweb.** Call or stop by the Registrar’s office if you do not know your Banweb password.

- **May 23rd – Mail is redirected to Google.** At this time all new mail will get delivered to Google (even mail addressed to your old account). You will still have access to your old email account, but it will not be able to send or receive.

- **You will have plenty of time to move over old email from @nmt or @admin when you return.** We will allow access to your old email accounts for 1 year.
