

Frontiers in Clinical Laboratory Science: Technology, Data Analytics, and Career Opportunities

David G. Grenache, PhD, D(ABCC)

Chief Scientific Officer | TriCore Reference Laboratories
Laboratory Director | Core Laboratory
Clinical Professor of Pathology | University of New Mexico

Melissa M. Budelier, PhD, D(ABCC)

Medical Director | Clinical Chemistry and Toxicology
TriCore Reference Laboratories
Clinical Assistant Professor of Pathology | University of
New Mexico

Abstract

This presentation delves into the dynamic landscape of clinical laboratory science and medicine, exploring the cutting-edge technologies employed, the pivotal role of data analysis, and the career opportunities available for both undergraduate and graduate students. We will highlight the diverse skill sets essential for success in this exciting field of medicine, empowering students with the knowledge needed to excel and thrive in various roles within the clinical laboratory domain.
