DID YOU KNOW?

In 2050, 50% of the energy used across the world will come from petroleum and natural gas.

-U.S. Energy Information Administration

I attained the highest R.O.I by attending NMT.

-William T. Morgan
Production Engineer
Mewbourne Oil Company

I worked on Carbon Capture Utilization & Sequestration (CCUS) research alongside Dr. Robert Balch & Dr. William Ampomah as part of work study funding, two industry leaders in one of oil and gas's hottest topics for sustainability.

-Jon Burwell
Petroleum Engineer
Packers Plus Energy Services

WHY choose the Department of Petroleum and Natural Gas Engineering?

You graduate with a rigorous and applied education from an outstanding university.

You go to the Langdon Taylor Banquet and the 49ers SPE Golf Tournament.

You get one of the best value programs in the US.

You get high salaries and many opportunities to work in an international environment.
