Andrea Gallegos

My name is Andrea Gallegos, I am a senior pursuing my Bachelor's degree in Natural Gas and Petroleum Engineering and I was awarded the President's Scholarship. Being an out of state student can be pricey and can make it nearly impossible for students to afford. Before coming to New Mexico Tech I was awarded the CORE Scholarship (Colorado Reciprocity). Having this scholarship helped me tremendously to even attend New Mexico Tech in the first place. My CORE scholarship ran out this last May 2018. So I thought I would not be able to finish my last year here at Tech, so that bummed me out a lot.

Being a very active member in clubs like SPE and AADE while being a student here has exposed me to a lot of volunteering opportunities some of which include The President's Gold Tournament. We have always been invited to the dinner afterwards where the President is always so proud to announce that the donations they receive are used as scholarships along for other student related expenses. I always thought it was pretty awesome that through the donations of others at the President's Golf Tournament some of the funds go towards students like me. This benefits students who need help to make their last year affordable in order to finish their degree.

It is so gratifying to know that NMT cares so much about their students that they support their students not only academically, but financially too. So thank you to all of you who generously donate to NMT and make it possible for students who need the extra help to finish their degree.

Thank you for contributing to the President's Golf Tournament. You are making a difference to the future!

You can further contribute to this life-changing cause by donating online at
