Happy Holidays

NMT Students Are Changing The World!

We may be a little biased but we believe that NMT has the best, hardest-working, and most innovative students!

Your donation to Undergraduate Research or Graduate Assistantships directly supports student research stipends and helps with associated research costs like supplies and travel.

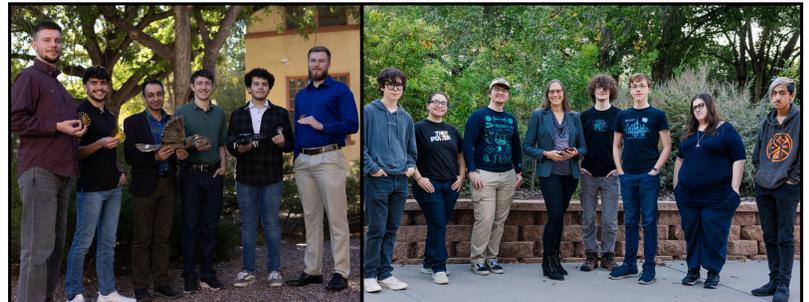

Your donation supports:

Quinn and Ruthie who are building a foundation for the development of promising cancer treatments.

Mechanical Engineering Students who are building robots and drones that can help save lives.

Zongjie, Carlos, and Gabriela who are helping develop membrane filters that clean water and the air.

Elijah and the Cybersecurity Club who are using AI to improve cybersecurity.

New Mexico Tech Selects A New President

The New Mexico Institute of Mining and Technology Board of Regents has selected Dr. Mahyar Amouzegar to be the institution's 18th president beginning April 15, 2024. Dr. Amouzegar has been appointed to a five-year term with an annual salary of \$425,000. Interim President Daniel López will serve in the same capacity through the transition period.

The Board of Regents selected Dr. Amouzegar after weighing input from the New Mexico Tech and Socorro community and with the assistance of national executive search firm Korn Ferry.

Dr. Amouzegar comes to NMT from The University of New Orleans, a public research university in New Orleans, Louisiana, where he has served as the Provost and Senior Vice President of Academic Affairs since 2017. He was named a Freeport McMoRan Distinguished Professor of Logistics earlier this year. He also served as the Dean of Engineering for California Polytechnic University, Pomona's College of Engineering from 2011-2017.
