

# COMPUTER SCIENCE HANDS-ON LEARNING EXPERIENCE FOR TEACHERS 6/19-6/23 & 7/14-7/19

**FREE COMPUTER  
SCIENCE COLLEGE  
CREDITS FOR  
TEACHERS!**

Did you know that the state of New Mexico recently updated its computer science requirements for middle and high school teachers? Luckily, in 2022 New Mexico Tech launched a pilot program called Buzzcamp, an immersive summer camp for middle and high school students. Buzzcamp offers an opportunity to have the full college experience on our campus while learning new and exciting skills in computer science. The sister component of this program is part of Tech's Master of Science for Teachers course. Teachers enrolled in this course spend a week on campus learning those same skills, then return and help teach them to our campers! The best part? The entire program is free, both the camp and the MST course, thanks to very generous donors. This is a unique opportunity to earn credit by learning, teaching, and growing your computer science skills. Scan the QR code below for more information.

New Mexico requirements for  
CS endorsement for teachers
