RE: RFB Number: RFP 26030022 - Amendment No. 3
Commodity: Scientific CMOS Camera, Large Format, 2.4 Meter Telescope

Q1. Could you please issue a clarified evaluation rubric tailored for a hardware procurement? As a camera manufacturer, providing hourly staffing rates and resumes does not align with the deliverables in Section 15.

A1. Resumes are not required. Cost proposals should include applicable costs (i.e. equipment, shipping, tariffs) that align with the proposer's business model.

Q2. Given the tight timeline and the fact that we are an international vendor, would NMT consider an addendum to accept secure digital submissions (e.g., via a secure NMT portal or encrypted email) with certified digital signatures (e.g., DocuSign)?

A2. Unfortunately, we cannot accept electronic submissions at this time. The proposal deadline is linked to the delivery date requirement, prohibiting an extension to the proposal deadline.

Q3. Would a China COO be acceptable for this specific procurement?

A3. International vendors need to provide required tax information. Tariffs and import duties need to be included in the total price.

Q4. For the preferred GPS time-stamping functionality, is there a specific hardware timing protocol (such as IRIG-B, PTP IEEE 1588, or a TTL trigger) that NMT's system currently utilizes?

A4. There is no specific preferred hardware timing protocol. Accurate GPS time-stamping to the acquired FITS-format images is the objective.

Q5. Could you please clarify the expected Incoterms for this budget? Is this \$137,750 expected to be a DDP (Delivered Duty Paid) price inclusive of all U.S. import tariffs and freight, or is it based on DAP (Delivered at Place) terms where NMT will be responsible for the import customs clearance and associated duties?

A5. It is DDP.

ALL OFFERORS ARE REQUIRED TO CONFIRM THE RECEIPT OF THIS AMENDMENT IN THEIR RESPONSE.
ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
