RE: RFB Number: RFP #26050034 - Amendment No. 5
Commodity: Geophysical Data Collection and Processing for Hydrogeological Studies IDIQ

Q1. Offer Form RFP Number Discrepancy - the solicitation is identified as **RFP 26050034**, but the Offer form references **RFP#26050033**. Please confirm the correct reference number to use on the Offer form and packaging.

A1. The correct reference number is RFP 26050034. A corrected Offer Form is available on the RFP website as Addendum 3.

Q2. Cost Proposal Format / Separation - Section 4 says cost remains sealed until technical scoring is complete, while Section 15.5 asks for hourly rates and associated project costs. Please confirm whether NMIMT wants a separate sealed cost envelope and whether labor categories alone are sufficient for initial pricing.

A2. Yes, please provide the cost proposal in a separate, sealed envelope. Please see Addendum 4 – A10 for information on rates.

Q3. Preferred Data Standards / CRS - Section 15.4 references specified digital formats and coordinate reference systems and data standards provided at the start of project. Please confirm whether any baseline standards, metadata templates, or preferred CRS conventions can be shared at the proposal stage.

A3. At the initiation of project with selected vendor(s), data standards, metadata templates and CRS conventions will be reviewed and planned as appropriate for data collection technique.

ALL OFFERORS ARE REQUIRED TO CONFIRM THE RECEIPT OF THIS AMENDMENT IN THEIR RESPONSE.
ALL OTHER TERMS AND CONDITIONS OF THE RFP REMAIN UNCHANGED.
