Letter of Addendum

TO: All Offerors

FROM: Kimela Miller

DATE: October 15, 2021

RE: RFP Number: 2209025C – Amendment #1
Commodity: Drill, construct, core and log a stratigraphic well

Please check the NM Tech website often for updates on this RFP.

Q1) What is the expected Well spud date?

A1) Depending on when NMT is able to have a contract in place with selected vendor(s), we anticipate spudding a well in the first week of December 2021. The exact spud date will be part of the contract negotiations with selected vendor(s).

Q2) What is the expected core point date?

A2) It is anticipated that the core point date will be around two (2) weeks from the drilling spud date. This will be negotiated once a vendor is selected and an acceptable drilling program is in place.

All Offerors are required to confirm the receipt of this amendment in their response. All other terms and conditions of the RFP remain unchanged.
