Requesting Department:	EMRTC	End User's Name:	Tom Pleva
Proposed Contractor:	Mark Grubelich	Estimated Cost:	\$37,500.00
Product Description:	Contractor	Date:	01/24/2022

I am requesting a sole source procurement based on the following reasons:

- Compatibility of existing equipment or supplies; provide details in *Explanation*. Include manufacturer, model number and NMT PCN of existing equipment.
- Item specifically required for use in conjunction with grant or contract. Attach applicable grant or contract page and provide justification of why it is required for grant / contract and why other substitutes are not acceptable.
- Requirement is of a proprietary / copyright / licensing nature which is explained below.
- The requested product has unique design / performance specifications or quality requirements which are essential to my work, research protocol or teaching needs, and are not available in comparable products. Please discuss this uniqueness / performance below.
- NMT Staff has specialized training and / or extensive experience. Retraining would incur substantial cost in money / time as explained below.
- I have contacted other suppliers or service providers identified below and have considered their product, however, their products / services are not acceptable because they are lacking one or more technical capabilities as discussed below.
- The requested product is essential in maintaining / continuing experiments. Other investigators have used this product in similar research and for comparability of results, I require it.
- Contractor is the sole manufacturer and sole distributor and has unique features / characteristics not available from other sources (provide explanation and attach applicable documents).
- Product is a prototype; contractor offers a trade-in allowance; availability of service, parts or maintenance as discussed below.

Explanation: Mark Grubelich has decades of experience in areas that are not taught in any classes. These areas include, but are not limited to, explosive pressing and die design, explosive chemistry experimental design and testing, remote operation system design.
