Indigenous Peoples' Day and Native American Heritage Month

Dear Colleagues:

New Mexico Tech invites our community and neighbors to recognize Indigenous Peoples' Day on Oct. 14 as well as Native American Heritage Month in November. These observances celebrate the rich traditions, contributions, and histories of Native American, Alaska Native, Native Hawaiian, and affiliated Island communities.

They also highlight NMT's commitment to weaving diversity, equity, and inclusion into all aspects of our institution—whether in academics, leadership, or community engagement. By honoring these diverse perspectives, we create a more thoughtful, innovative, and connected environment, both at NMT and beyond.

Warm regards,

Mahyar and the President's Cabinet
