

## NMT Universal Waste Pick Up Request Form

**PRINT ONLY! Handwritten forms will be returned**

<b>Name:</b>	<b>Dept.:</b>	<b>Building:</b>	<b>Room:</b>
<b>Phone:</b>	<b>Email:</b>	<b>Date:</b>	

Before HAZMAT will pick up your waste, ensure that the following criteria have been met:

### Battery Waste

- The terminals of the batteries have been taped over (AA and AAA batteries are excluded from this requirement).
- Lithium batteries have been placed inside separate plastic bags (after terminals have been taped).

### Bulb Waste

- Bulbs have been stored in a suitable cardboard container for safe transport if possible.

### Mercury Containing Equipment (MCE)

- All mercury containing waste has been placed in a suitable container labeled "Mercury - DO NOT OPEN"

### Used Oil

- All containers of used oil are labeled "Used Oil". DO NOT LABEL AS "WASTE OIL"! Waste Oil and Used Oil are not the same substances in regard to hazardous waste regulations.

### Other Universal Waste

- Aerosol Cans containing hazardous chemicals or ignitable compounds are considered Universal Waste.
- Recalled, canceled or suspended pesticides are considered Universal Waste.

Universal Waste Classifications	Number of Units	Approximate Total Weight of Units	Notes (Type of battery chemistry, type of bulb chemistry, size of bulb, etc.)
Battery Waste Bulb Waste Mercury Containing Eq. Used Oil Aerosol Can Pesticide			

Universal Waste Classifications	Number of Units	Approximate Total Weight of Units	Notes (Type of battery chemistry, type of bulb chemistry, size of bulb, etc.)
Battery Waste Bulb Waste Mercury Containing Eq. Used Oil Aerosol Can Pesticide
