Dear Senate,

My name is Roxana Cereceres and I am currently a senior in Mechanical Engineering here at New Mexico Institute of Mining and Technology (NMT) and vice-president of a very dear to me club, the Society of Hispanic Professional Engineers (SHPE). This national organization thrives on the idea of empowering the Hispanic community to do great things in the STEM world. Under our current executive board's (e-board) administration, we have focused on spreading the horizons of our club and getting more involved on campus and the community in many different ways using the diversity that our club offers and nursing the blooming talents and leadership our members offer.

What makes the NMT SHPE chapter special is the warm and welcoming familia (family) that we have created. Our chapter has members of all backgrounds and consists of talented and intelligent individuals that are focused on Science, Technology, Engineering, and Mathematics (STEM).

SHPE provides opportunities that are normally unavailable to most students, enabling them to network, and ultimately, find a job. Last semester we had the opportunity to take 23 members to the Regional Leadership Development Conference (RLDC) in Fort Collins, CO. Our members had opportunities to go to different workshops and learn from professionals from many different STEM companies such as Ball, Honeywell, Exxon Mobil, and many more. We had probably the biggest representation at this conference and were able to show what NMT students are capable of. This semester we plan to take 8 people to the national conference in Phoenix, AZ during the dates of October 30, 2019 through November 3, 2019. This conference will be the perfect opportunity for our members to network, get a mentorship with a professional with a similar background as them, develop their skills, and ultimately get a job/internship.

We are a club that struggles financially due to continued setbacks encountered at school to fundraise, this semester we have appointed a fundraising chair in hopes of having more success now. One hundred percent of the work we towards the school and community has been volunteer work. Last semester alone, we volunteered during the Presidents Tournament, Career
